

## BRC certified

Here at Herrco Cosmetics, we are delighted to inform you of our successful audits this past year by the British Retail Consortium (BRC). Over the past six to twelve months, we have worked extensively to ensure our internal manufacturing processes and procedures are the best in our industry.

The British Retail Consortium is the lead trade association representing supermarkets and independent retailers. The BRC carries out a range of audits on manufacturers which are known for their rigorous quality assurance analyses. In cosmetics, they are regarded as the highest level of manufacturing standards after Pharmaceutical production. Based on our cosmetic licence, we have now attained the highest level of auditing possible.

Our successful certification ensures that our clients can relax in the knowledge that their products are being developed and manufactured to the very highest quality and safety assured standards ...proven!
