

## Good Manufacturing Practices (GMP)

Herrco Cosmetics is really pleased to announce the accreditation to ISO 22716:2007 achieving zero non-compliance's and one of the first cosmetic manufactures to achieve this accreditation in the whole of Europe. As of the 11 July 2013, the European Union's new Regulation (EC) No 1223/2009 will require cosmetic products to be manufactured according to Good Manufacturing Practices (GMP) the changes entail that finished products are manufactured to these standards, proven. One way to demonstrate compliance with GMP is to implement the international standard ISO 22716:2007.

Achieving ISO 22716 demonstrates a solid foundation across the whole facility for ensuring quality and safety for all the products that leave Herrco cosmetics factory. We have proven a leading management system to documenting and regulating the production, control, storage, and shipment of cosmetic products.

**Sonia Rose, quality control manager comments:** "The importance of protecting and enhancing the safety and quality of consumer products in the cosmetics industry cannot be overstated, after all it is no secret that the cosmetics industry is dominated by the importance of physical appearance and personal well-being, we're all thrilled with our latest accreditation. Our customers can rest in the knowledge that they are using a leading facility.....Proven"
