

It's a record!... ...279 new product launches this year!

Herrco Cosmetics has had an amazing year, with large investments within all areas of the facilities, investment in new team members and records broken month on month, new export territories opened monthly and the biggest record 279 new products developed and launched from the 1st of January 2012.

This is a huge achievement by the new product development and laboratory team, not to mention the immense planning and operations required to produce and launch so many new lines in one calendar year. These new product launches are for all types of brands, all sizes all over the world, varying from skincare, haircare to bath and body for multinational retailers right through to the most exclusive department stores and spas across the globe.

Many thanks to Herrco Cosmetics from all the Spa team
