

Development Chemist

Herrco Cosmetics have an exciting opportunity for a **Development Chemist** to join our team based in **Halesworth, Suffolk**.

We are offering a competitive starting salary around **£25,000 - £30,000** per annum

The Job: Premium brands and high quality products is our core business here at Herrco Cosmetics. This is what we are all about and where we are going on our exciting growth journey. We live and breathe innovation, new technology and are at the forefront of new raw materials. We encourage blue sky developments and enable your creative flair to flow. We do things differently, we delight our customers, and we enjoy seeing their successes through our excellent formulations and close working relationships. We are champions of people development and set clear paths to progress to a Senior Development Chemist.

Herrco Cosmetics...

...are an innovative UK based cosmetics manufacturer, specialising in bespoke product development and formulation. For over two decades, we have been creating some of the most well-known cosmetic products in the UK, and year on year, our formulations are winning increasingly prestigious awards in top cosmetics ceremonies.

Manufacturing cosmetics and personal care products spanning skin care, bath, body, and aromatherapy products, as well as more niche markets such as mother & baby, Sun Protection factors and organics. Herrco is a thriving family business whose company philosophy is firmly rooted in providing flexible innovative solutions for our clients' production criteria.

We are now looking for a talented individual to come and join our team. We recruit people who believe in the things we do, people who are motivated, hardworking, and have a 'can do, will do attitude'.

Development Chemist Job Duties:

- Working with the Commercial Team on NPD briefs taking from concept through to launch
- Working with customers on briefs, technologies, textures and innovations
- Development of products through the laboratory in all areas of personal care including: skincare, haircare, bath and body & baby
- Responsible for formulas through stability, micro and compatibility testing
- Present new ideas and blue sky formulations to new and existing customers
- Keeping up to date on trends and attending cosmetic seminars and events
- Acting as duty chemist across the factory during manufacturing process being a trouble shooter and solutions focused

Essential Skills & Experiences:

- Proven experience in formulating in the personal care sector
- Excellent organisation and communication skills
- Ability to be self motivated and work as part of a team
- Natural creativity and flare for product development and innovation
- Interest in natural and organics
