

Engineer

Herrco Cosmetics have a new opportunity
For 2 Engineers
to join our in **Halesworth, Suffolk**.

We are offering a salary range
£26,000 - £28,000 per annum

The Job: Are you experienced and qualified multi-skilled Engineer looking for an exciting new opportunity to really make a difference? Working with premium brands and high quality products is our core business here at Herrco Cosmetics. We do things differently, we follow new technology closely and thrive on innovation. We are champions at developing our people and building capability along with investing and developing our plant and equipment.

Herrco Cosmetics...

...are an innovative UK based cosmetics manufacturer, specialising in bespoke product development and formulation. For over two decades, we have been creating some of the most well-known cosmetic products in the UK, and year on year, our formulations are winning increasingly prestigious awards in top cosmetics ceremonies.

Manufacturing cosmetics and personal care products spanning skin care, bath, body, and aromatherapy products, as well as more niche markets such as mother & baby, Sun Protection factors and organics. Herrco is a thriving family business whose company philosophy is firmly rooted in providing flexible innovative solutions for our clients' production criteria.

We are now looking for a talented individual to come and join our team. We recruit people who believe in the things we do, people who are motivated, hardworking, and have a 'can do, will do attitude'.

Engineer Job Duties:

- Working shifts of weekly rotating patterns of either 5.45am – 2.45pm and 1pm – 10pm.
- Day to day support of production by setting up lines, machine configuration and carrying out planned maintenance
- Provide engineering maintenance and breakdown service to a large variety of machines vessels, including fillers, labellers batch coders
- Dealing with contracts and contractors as and when required ensuring compliance with safety
- Delivering projects, either sole projects or as part of a team working together to achieve goals
- Following Health and Safety standards ensuring high compliance and safety methods of working
- Take a keen interest in continuous improvement
- Support and help the Junior Engineers and Line Setter team to develop

Essential Skills & Experiences:

- Substantial experience as an engineer ideally gained within a manufacturing environment, we recognise transferable skills
- Recognised engineering qualification
- Health and Safety qualification
- Experience problem solving and trouble shooting skills
Excellent coaching, leadership and people management skills
- Methodical ways of working, and highly organised
- Able to delegate, prioritise and manage multiple tasks
- Energy, drive and flexible approach to working in a fast paced business
